

CQI & IRCA Certified ISO 9001:2015 Auditor Transition Course

Course Description

These two one-day courses provide existing QMS Lead Auditors with the knowledge and skills to audit the changes between the requirements of ISO 9001: 2008 and those of ISO 9001: 2015. The course meets all of the training requirements for IRCA transition registration.

The courses can be individually or combined in two one-day modules.

Who Should Attend

People with existing IRCA registration as QMS auditors and lead auditors will find this essential to their continued registrations. The Annex SL module will be useful for auditors/lead auditors in other disciplines who can then take a separate module specific to their discipline (e.g. environmental, food etc.).

Prior Knowledge

Before attending this course we expect delegates to have a good working knowledge of:

- the terminology used in quality management
- ISO 9001: 2008 requirements and how to audit these
- the seven management principles underpinning ISO 9001: 2015
- the Plan, Do, Check, Act (PDCA) cycle as applied to quality management systems
- the core elements of a management system and the interrelationship between top management responsibility, policy, objectives, planning, implementation, measurement, review and continual improvement

We provide reminders of these in the comprehensive notes that accompany the course.

Course Structure & Content

The courses are structured in modules that build on each other. Module 1 on Day 1 concentrates on auditing the Annex SL core requirements that apply to all ISO management system standards. Module 2 concentrates on the quality specific requirements. We provide on loan a copy of ISO 9001: 2015 for each delegate and a bound comprehensive audit checklist. The checklists can be purchased from the tutor or via www.jemo.co.uk if required.

Cost

The non-residential cost per delegate is £635 + VAT (2-day), £318+vat (1-day). We give 5% discounts for early bird bookings (2 months prior to the course date) and multiple bookings.
